

Developer Module Overview

What makes Subscribe-HR Different?

The Developer Module is focused on providing end-users with the ability to manage and take control of the configuration and extension of their Subscribe-HR system. No-Longer do you have to always ask your provider to perform changes to your application. Changes can be made to the Subscribe-HR system without the need of any technical/development skills. Up to 60% of Subscribe-HR system can be configured by end users. This presents a tremendous potential cost saving to Subscribe-HR customers meaning that budgets can be focused on Strategic HR initiatives. **KEY FEATURES INCLUDE:**
